

# Automating with Onward: A 5-Step Journey to Success

Transform your fulfillment operations with automation. Follow our proven 5-step process from initial assessment to scalable success. Your business will be positioned for seamless integration with your selected partner, maximized ROI, and long-term growth.

## 01 Assess

Evaluate your current needs

- Collect data on order profiles, inventory, and warehouse layout
- Analyze current workflows, identify inefficiencies
- Document top pain points, prioritize potential wins

*The Onward Advantage: Our experts help you gather and interpret data for the most targeted approach*

## 02 Plan

Define your strategy

- Establish clear short-term and long-term goals
- Align automation strategy with operational priorities
- Collaborate with automation project stakeholders across all departments

*The Onward Advantage: We work with you to create a future-proof plan that grows with your business*

## 03 Partner

Choose the right vendor

- Research and evaluate options based on your needs and business goals
- Look beyond the technology to find a true collaborator
- Ask thorough questions about the implementation process and ongoing support

*The Onward Advantage: More than just a vendor, we're a dedicated partner that's focused on your success*

## 05 Grow

Analyze impact, adapt for success

- Monitor your key performance indicators
- Continuously analyze your data for new optimization opportunities
- Scale successful automation across multiple processes and facilities

*The Onward Advantage: We provide ongoing support and proactive optimization, helping you maximize ROI and adapt to changing demands*

## 04 Design and Implement

Customize, test, and deploy your plan

- Work with your partner to tailor the automation design to your specific processes and goals
- Conduct multiple simulations and scenario analyses
- Ensure seamless integration of your new solution with your existing systems and technologies
- Involve your team by providing comprehensive training and support

*The Onward Advantage: Our solution is customized to your unique needs, with expert support at every step*

Ready to move your fulfillment *onward*?

Our expert team will guide you through each stage of your automation journey. From assessment through implementation and support, Onward Robotics can help you meet and exceed your goals.
